

KAPILAN P.C

Aspiring AI and Data Science Professional

9626977216 @ kapilanchellamuthu@gmail.com linkedin.com/in/kapilan-p-c-361188280/

github.com/Kapilan0803 Karur, Tamil Nadu

SUMMARY

Resourceful and adaptable fresher with strong analytical, problem-solving, and communication skills. Eager to learn and apply knowledge to real-world challenges while adapting quickly to new environments and technologies. Known for a proactive mindset, attention to detail, and commitment to teamwork and continuous improvement. Dedicated to contributing effectively to organizational growth and success.

EXPERIENCE

Java Intern

Infosys Springboard 09/2025 - 10/2025

https://github.com/Kapilan0803/CampusTrack-Intelligent-Lost-and-Found-Locater

Infosys delivers structured virtual internships focused on real-world application and skill growth

- Worked on a frontend development project, focusing on building and enhancing dynamic user interface components.
- Implemented key modules using React, JavaScript, HTML, CSS, and Java, ensuring responsive design and seamless functionality.
- Collaborated with team members to integrate frontend and backend features for a cohesive user experience.
- Gained hands-on experience in modern web development, improving problem-solving, collaboration, and technical skills.

PROJECTS

AI-Chatbot-Suite

https://github.com/Kapilan0803/AI-Chatbot-Suite

An AI-powered chatbot project focusing on delivering dynamic responses

- Built an AI-powered chatbot suite using Python, LangChain, and Groq Inference for dynamic, context-aware responses.
- Integrated Streamlit for backend interface and modular deployment across multiple chatbot modes.
- Enabled Retrieval-Augmented Generation (RAG) with FAISS for fast, vector-based document retrieval and semantic search.
- Delivered real-time Q&A over custom knowledge bases using efficient LLM workflows.
- Demonstrated expertise in LLM integration, interactive AI design, and semantic search pipelines.

FinTrack

https://github.com/Kapilan0803/FinTrack

A finance management application to assist users with budgeting and expense tracking

- Developed Fintrack, a personal finance management application that allows users to track expenses, manage budgets, and analyze financial data, built with HTML, CSS, and JavaScript to provide an interactive and user-friendly experience.
- Designed for finance users for interaction and effective financial insights.
- Implemented data visualization charts to display spending patterns and financial summaries for better decision-making.
- A web-based finance tracker enabling users to manage budgets and monitor expenses efficiently.

EDUCATION

B.Tech in Artificial Intelligence and Data Science

V.S.B Engineering College

08/2022 - 05/2026 Karur

- CGPA - 7.6

12th & 10th

Vivekananda Higher Secondary School

Namakkal

- HSC - 75%
- SSLC - 85%

SKILLS

Programming Languages

Java, Python, SQL

Web Technologies

HTML, CSS, JavaScript

Tools & Platforms

GitHub, VS Code, IntelliJ

CERTIFICATION

AWS Academy Certifications

Cloud Operations

Cloud Architecting

Generative AI Foundations

Java Foundation

Certification in Java programming from Infosys Springboard

LANGUAGES

English

Tamil

KEY ACHIEVEMENTS

AI Workshop at IIT Research Institute

Attended an Artificial Intelligence workshop at IIT Madras, exploring AI applications in daily life and identifying key skills required for an AI engineer.
